THIS IS UNEVALUATED INFORMATION FOR THE RESEARCH
USE OF TRAINED INTELLIGENCE ANALYSTS

1. Ordinarily, the only document required for traveling in North Korea is a personal identification card. Any traveler found without one in his possession is immediately placed under arrest.
2. Preliminary investigations of all travelers are conducted by members of the local Self Guard Units. If further investigation is required, the traveler is turned over to the local Special Service (Counter-intelligence) Section of the Internal Affairs Office.
3. During an epidemic in North Korea all travelers must carry inoculation certificates issued by the Department of Health.
4. To travel between Sinuiju and Antung, a "river crossing certificate" is required. These are issued only to officials (? of Antung and Sinuiju?).
5. In October or November 1947, YUN Kong-hun (尹公欽), North Pyongan (Heian) Provincial Chief Commissioner for the Prevention of Epidemics, received a special order (? from the North Pyongan Provincial People's Committee?) that all travelers entering North Korea from Manchuria, excepting those officials mentioned in paragraph 4, were to be arrested (? detained?) and thoroughly investigated.
